Advocacy Summary

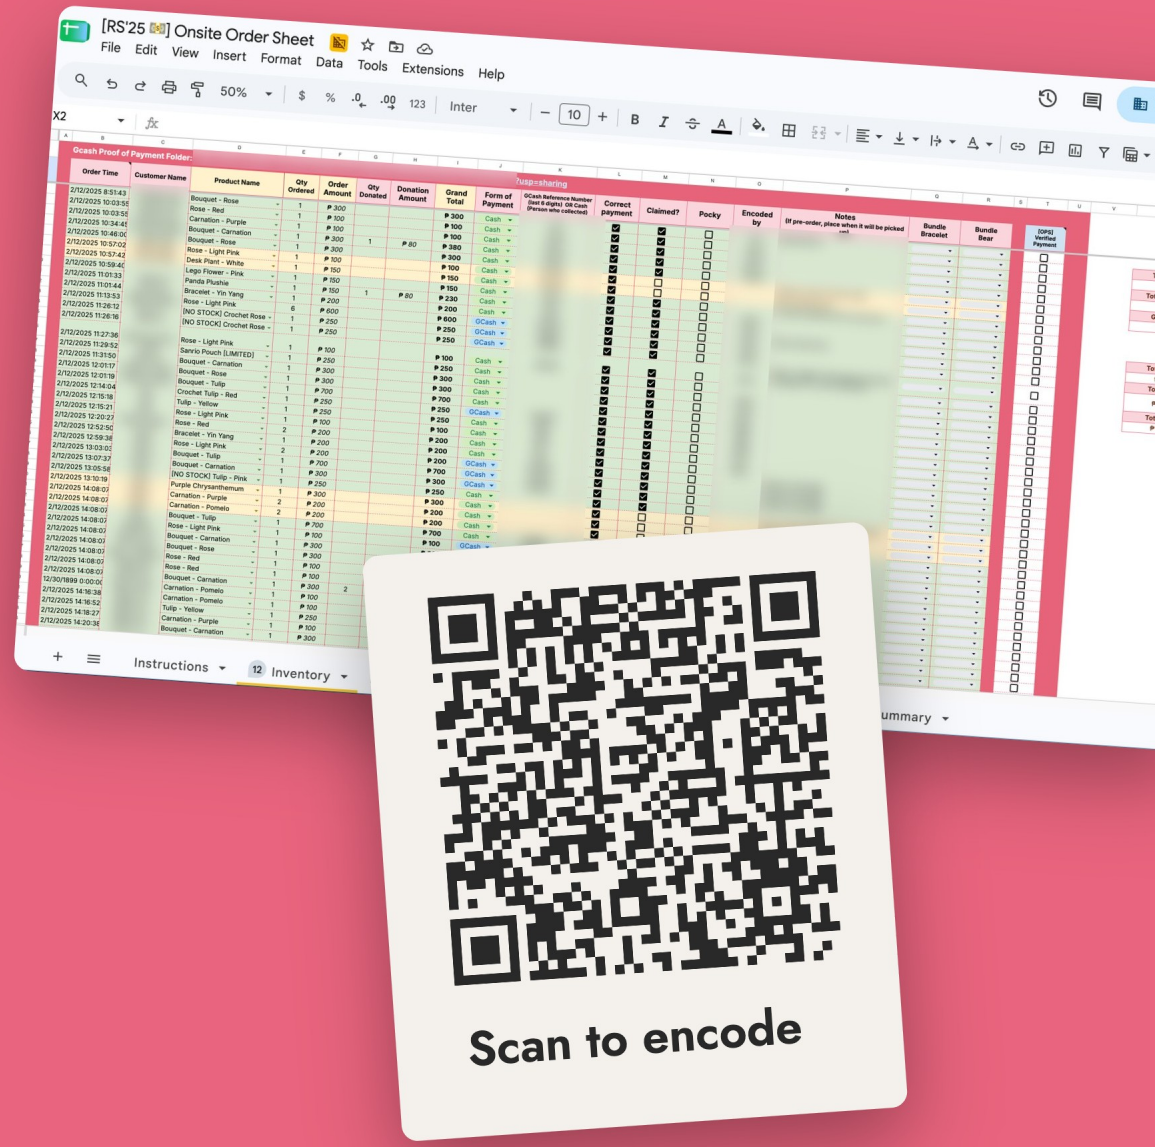

Got questions? Send them on Slido anytime

Scan the QR code. We'll answer the top-voted ones at the end.

Lag Race!

We need 3 volunteers. You get 60 seconds to encode orders on the 2025 sheet.

That’s what sale day felt like in 2025

Except we had four encoders and a long line.

Hi, I'm Keene

- Business Systems Consultant at Ritual Matcha
- Founded Klick n Code at 13 (30+ clients)
- Project Manager, Celadon RecWeek '26
- Celadon AVP for Org Strategies & Research
- Management Engineering at Ateneo

Rose Sale 2026

2,300+ orders, all tracked in sheets we made ourselves

Rose Sale 2025, the year before ours. Colors were the only way to track status.

So in 2026, we rebuilt it

Each laptop gets its own encoder tab with dropdowns

Product	Quantity	Grand Total	For Bundle Orders	Bouquet Flower
Rose Bouquet	2	600		
				Red Rose
				Pink Rose
Blue Lego Flower	3	360		
Rose Ribbon Valentine's Day Card	1	20

				Two-Toned Carnatio	2	

The pick-up list fills itself, no retyping

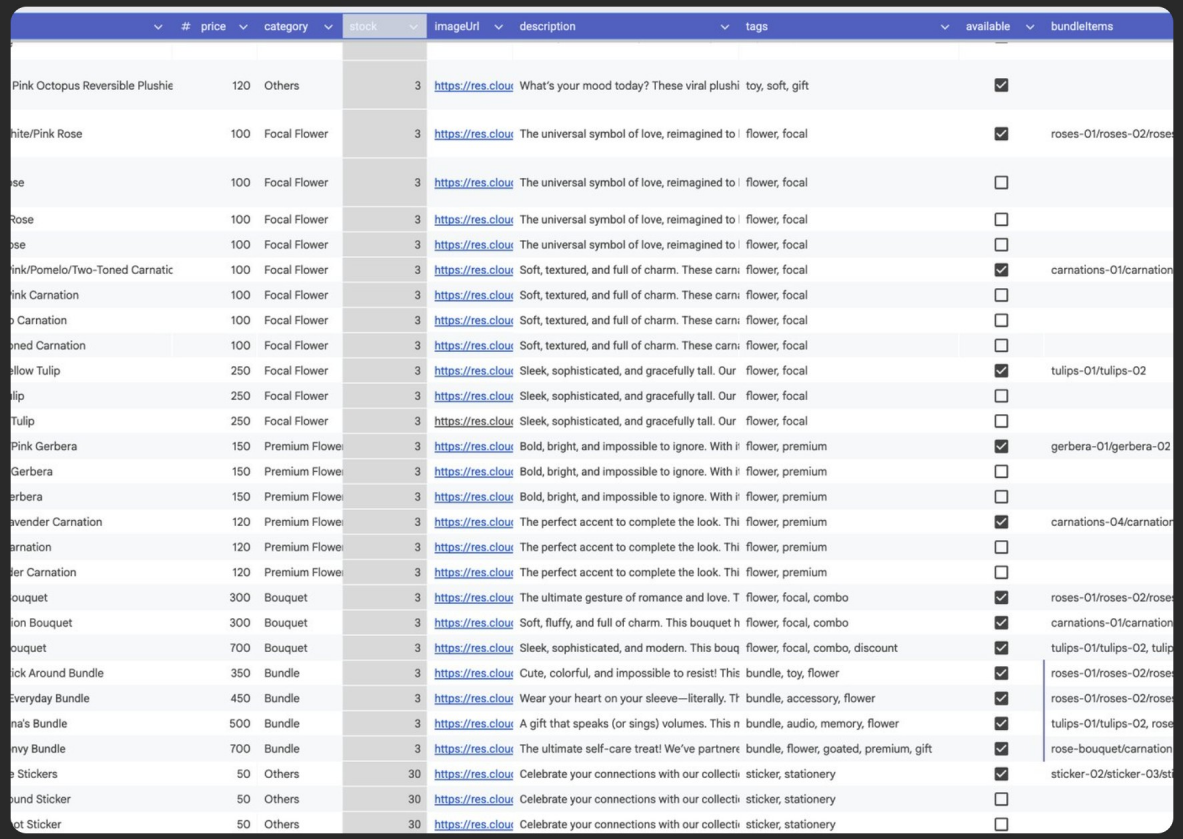

~~gcash~~
~~G-Cash~~
~~Gcash~~

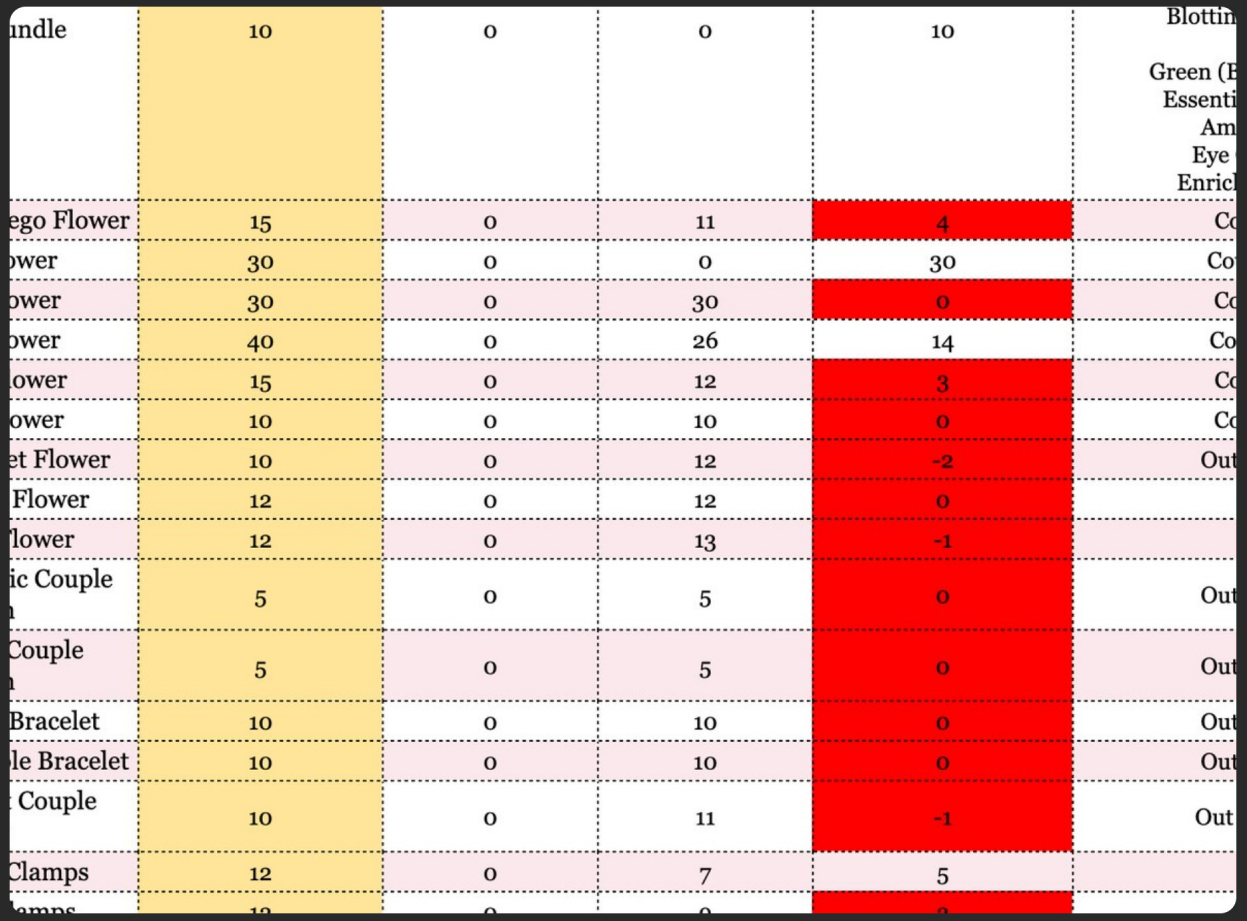

Use dropdowns so everyone types it the same way.

Bundles were one row, so the roses never left stock

Before the sale, list every kind of order and check where each one lands in the sheet.

Sheet: 48
Bucket: 41

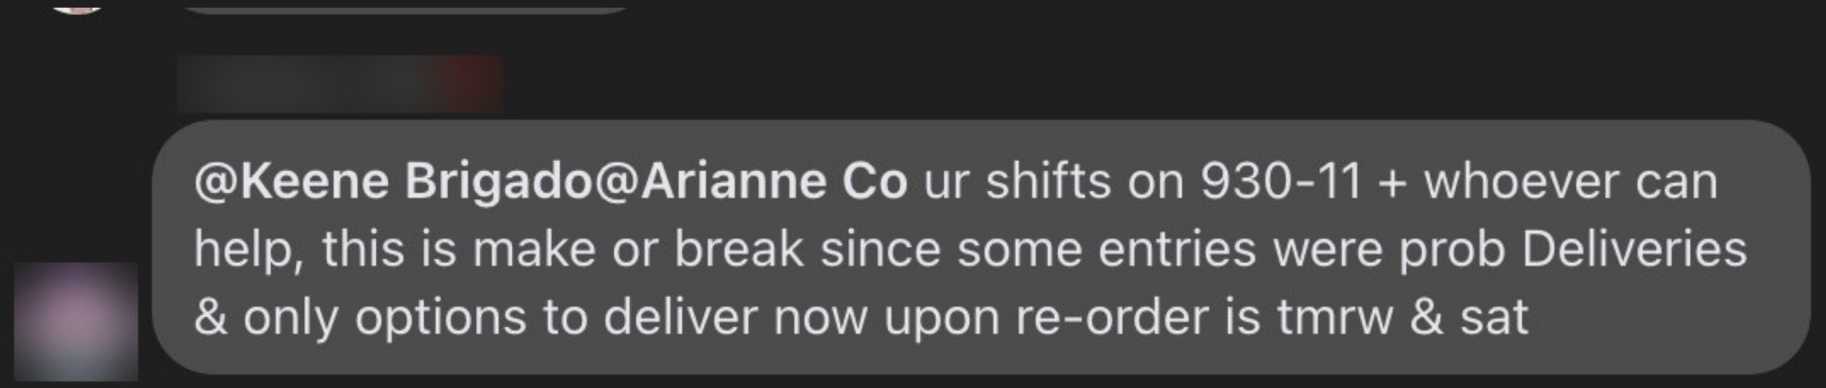

Where did the other 7 roses go?

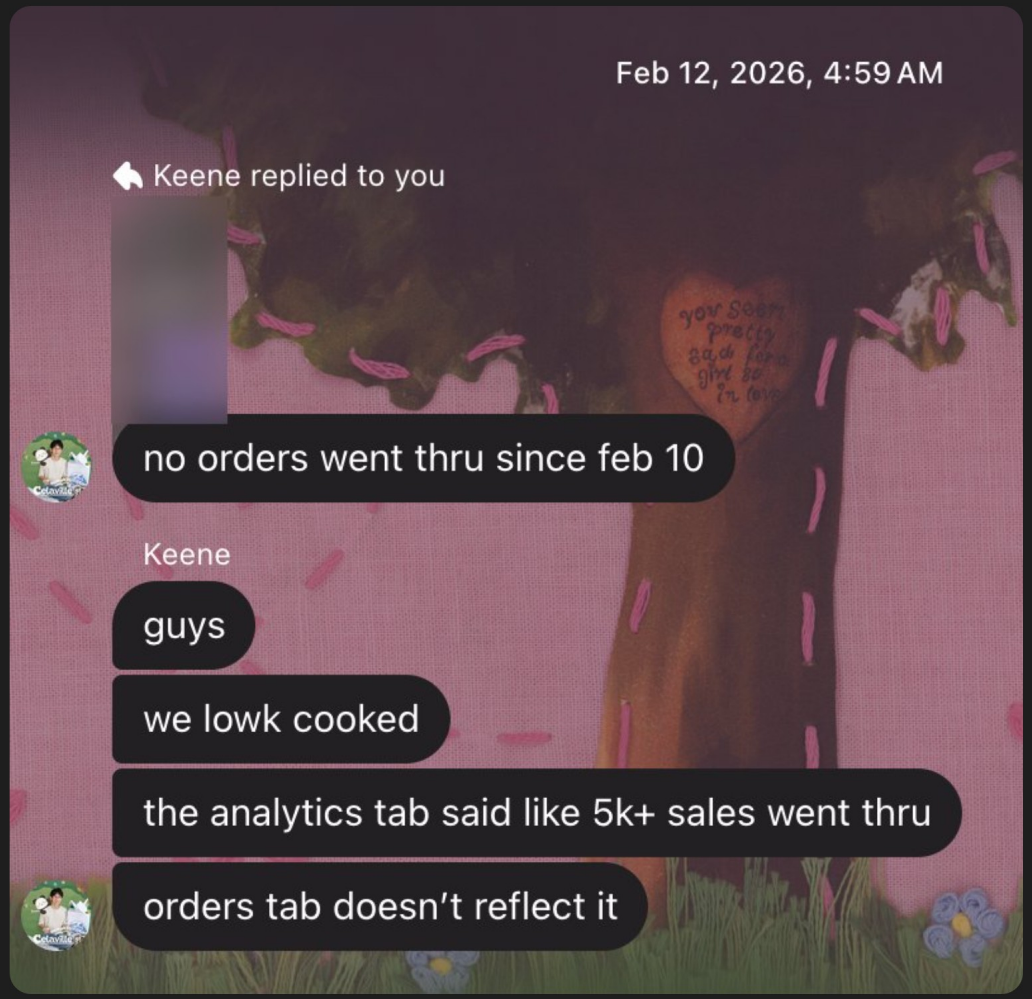

Don’t trust the GSheet entirely

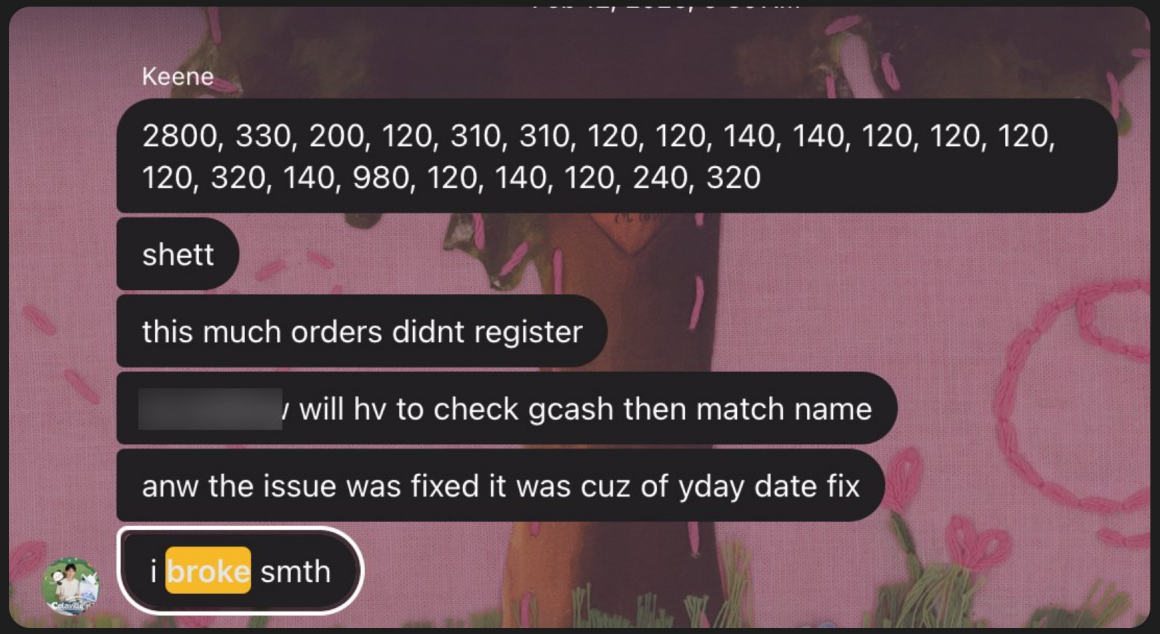

Expect discrepancies from freebies, pre-orders and walk-ins, and count the actual stock.

One website update lost ₱15,000 of orders

4:59 AM in our group chat

It’s midnight and it’s your fault. What would you do?

A

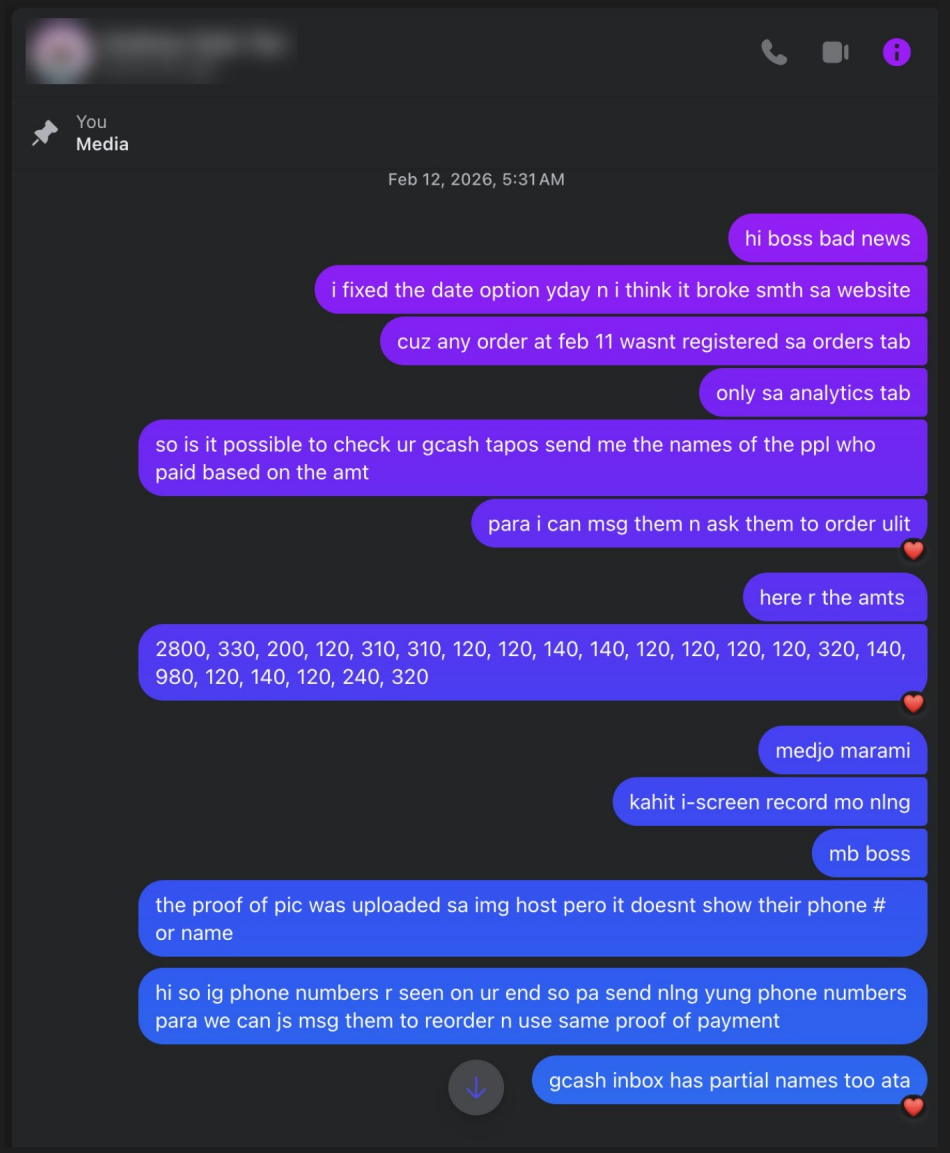

Tell the heads right away

B

Try to fix it quietly first

C

Sleep on it, deal with it tomorrow

At 5:31 AM, I told our PM everything

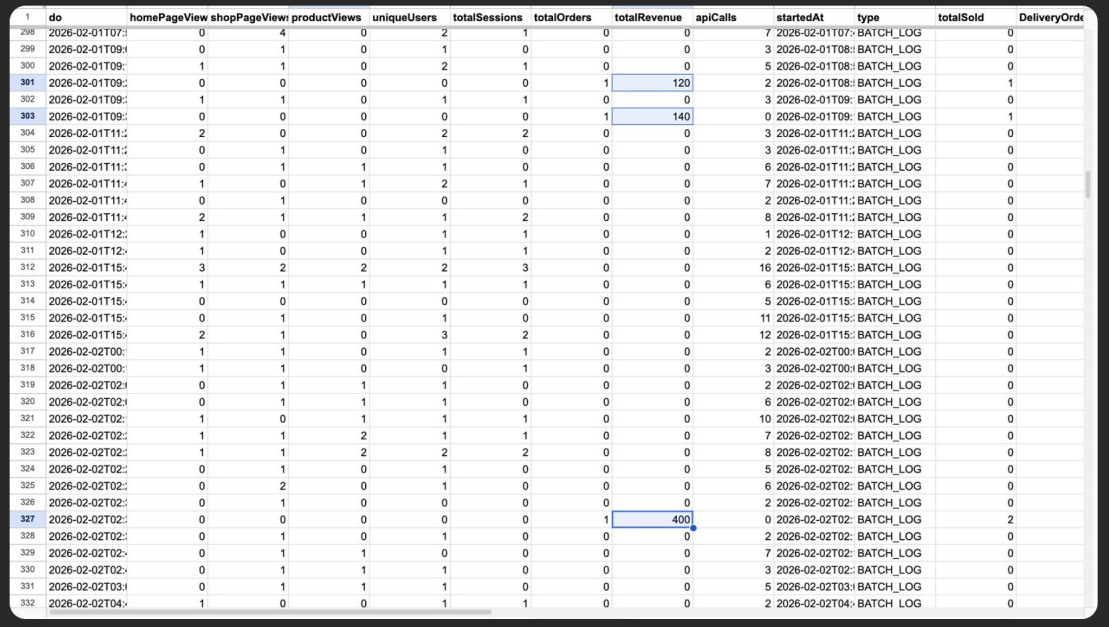

what happened was the website broke yest & didn't take any website orders, we js have ppl's numbers

i have complete trust in yg, esp apologize to the customer & try to Call Them din nalang

💛💙 2

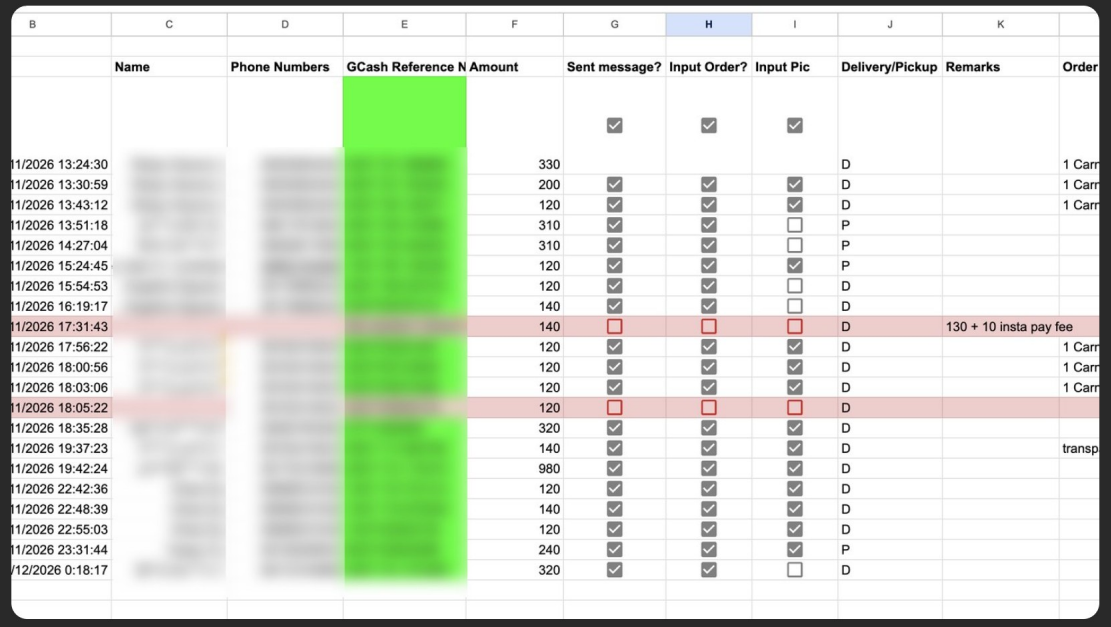

oh and worst case is Refund, that's an option

By 10 AM, we got every order back

The sheet we used to call everyone

What I learned that night

#1

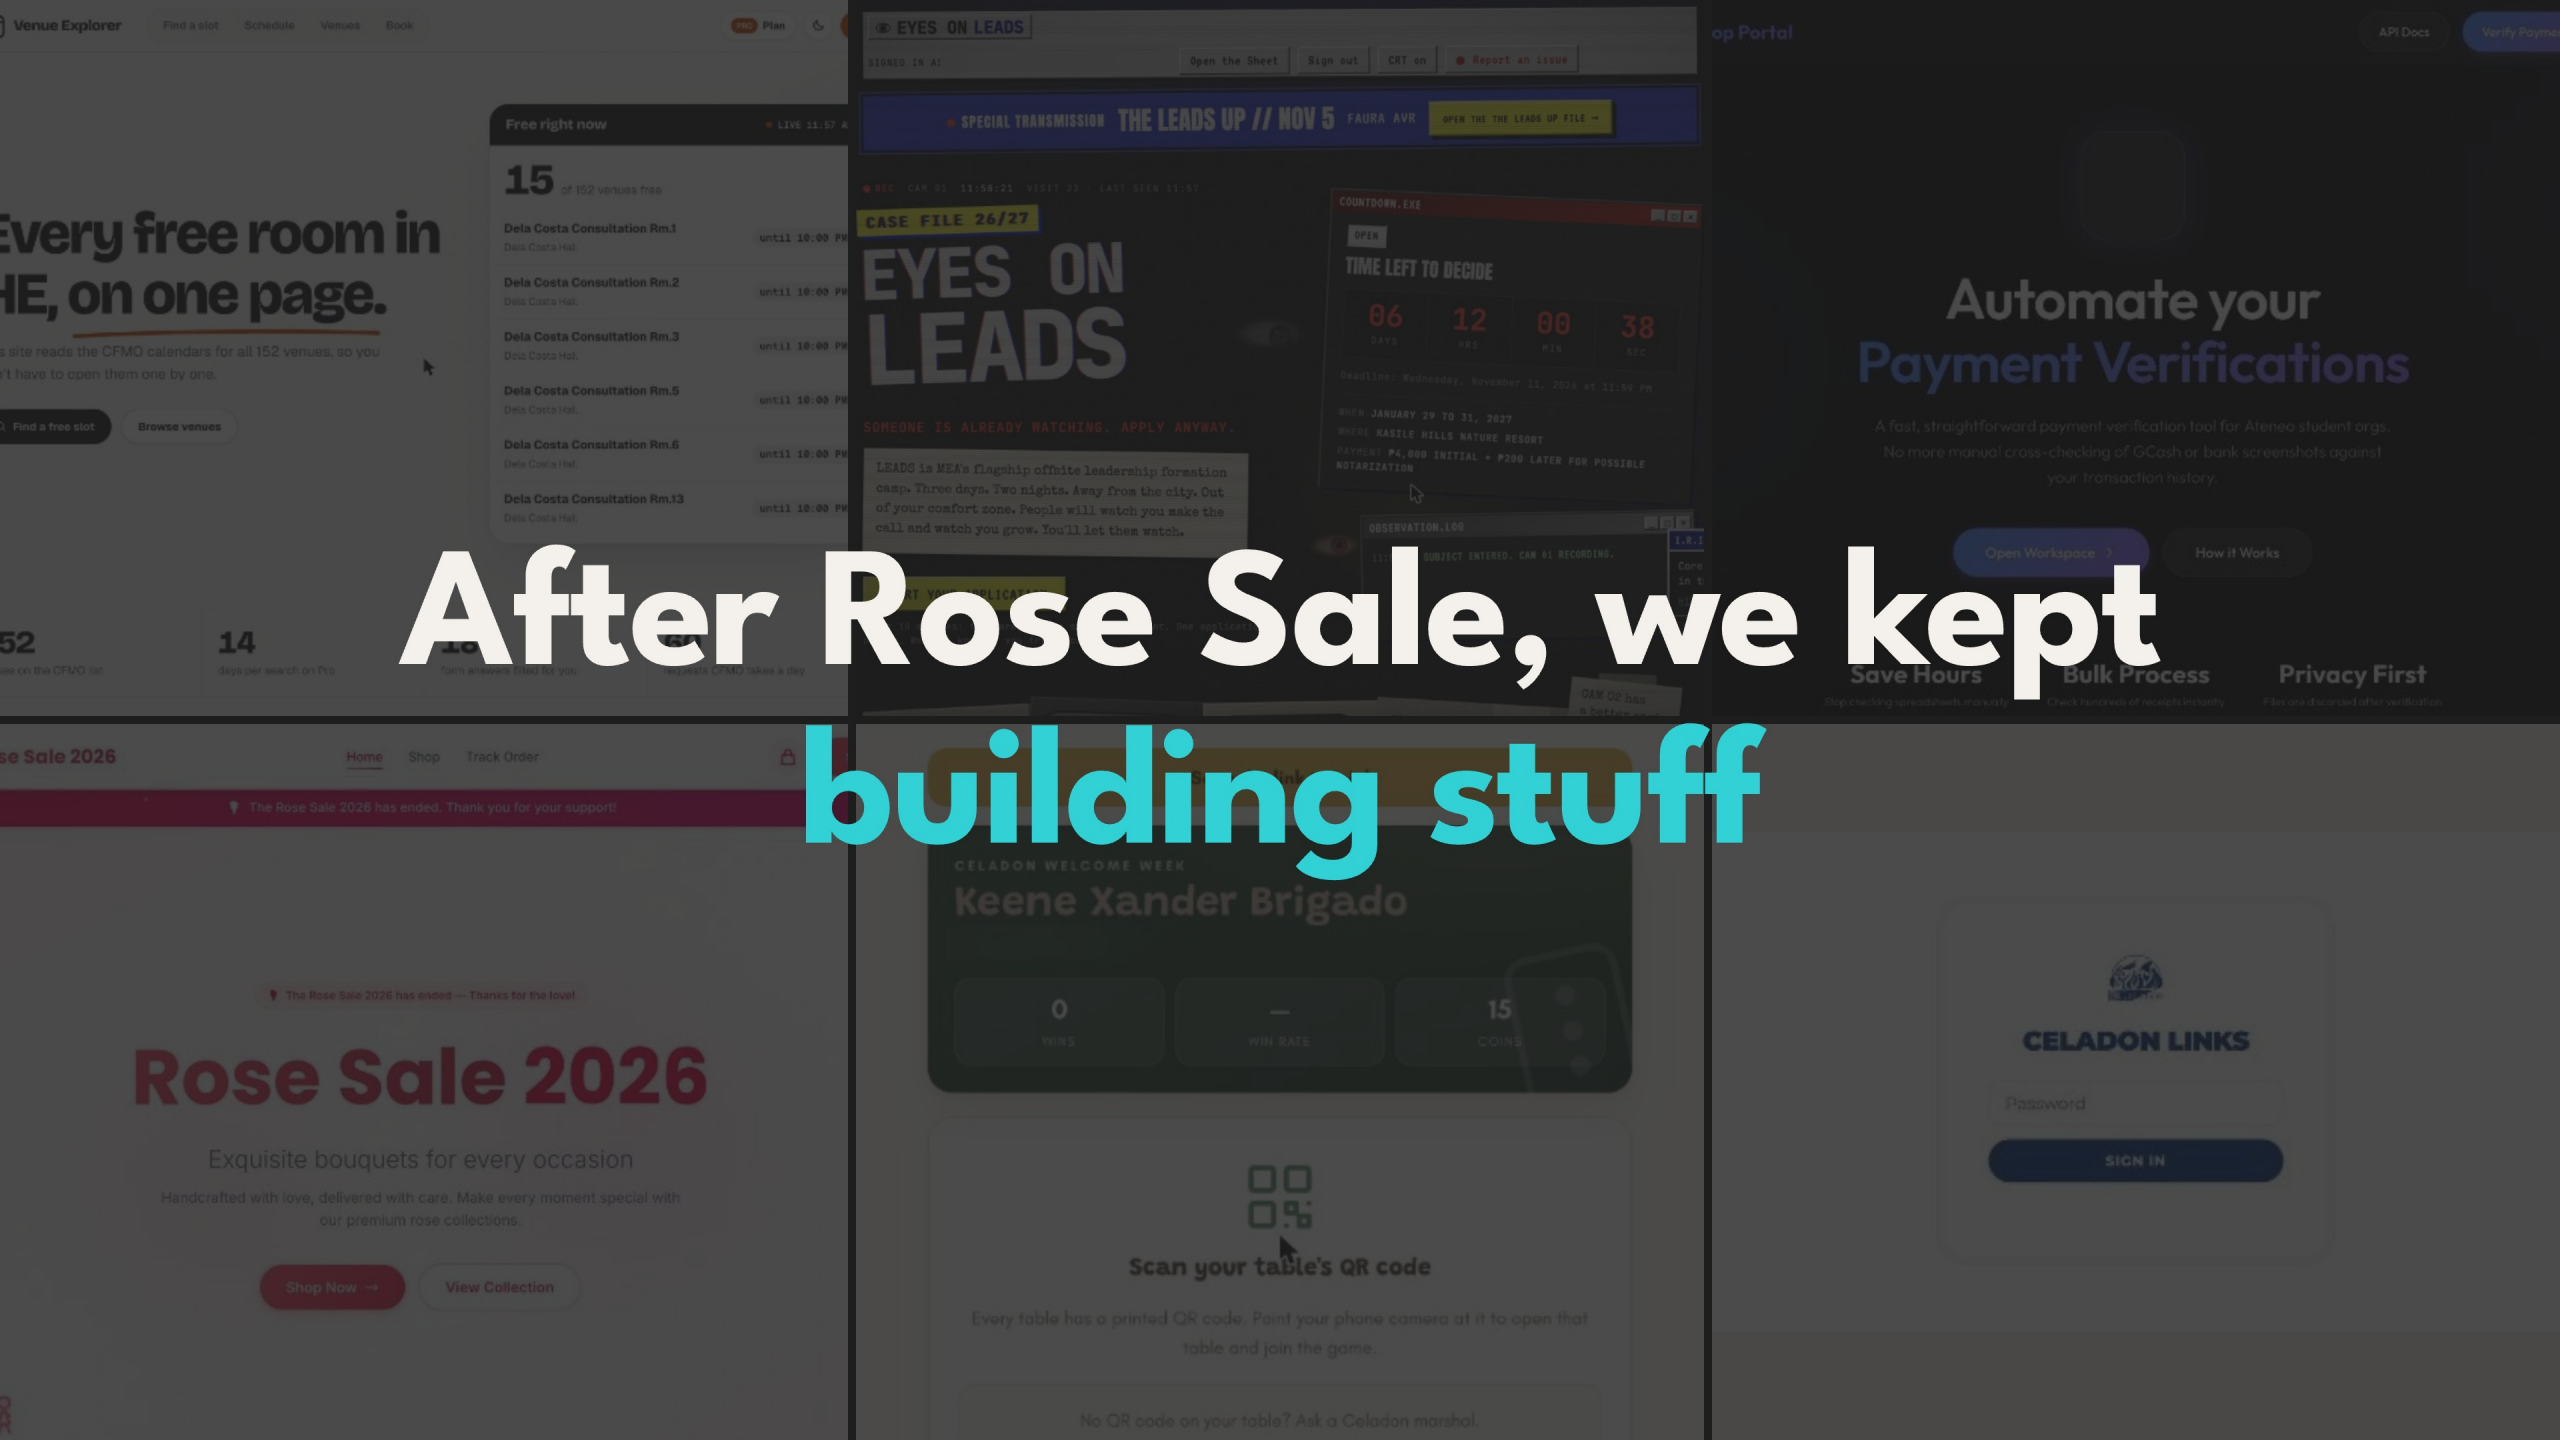

Tell people early, even if it's your fault

#2

Keep backups, even ones that seem useless

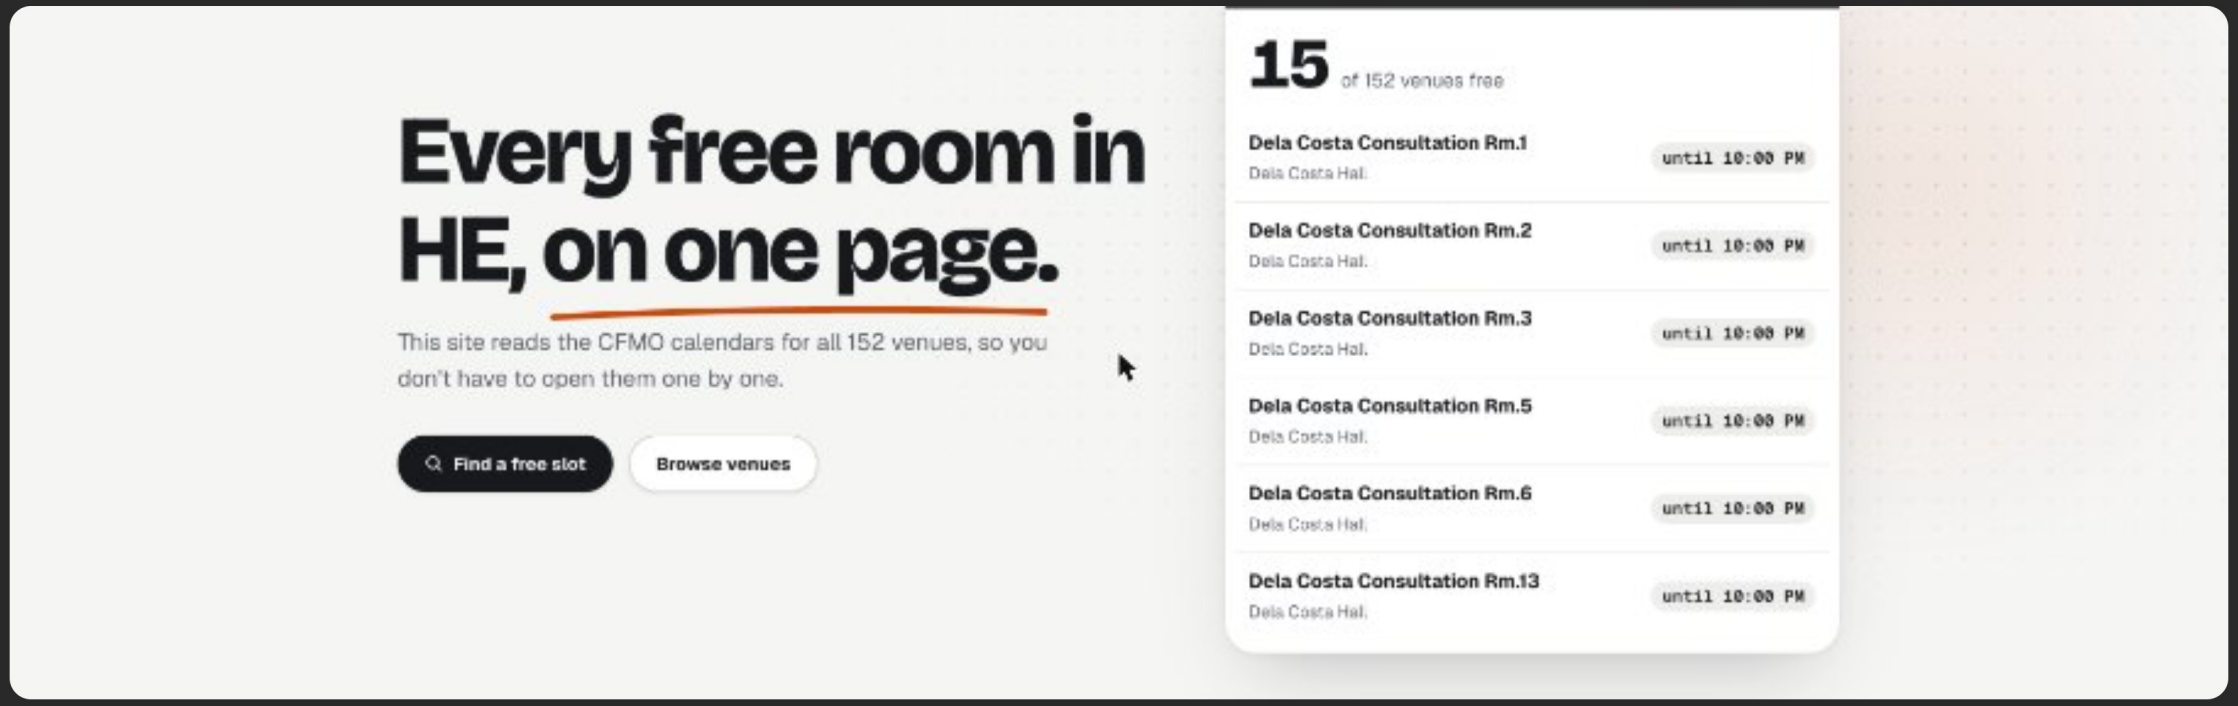

#3

Never update the system mid-sale

After Rose Sale, we kept building stuff

HE Venue Explorer

Find a free room in HE in two minutes, no more checking every calendar

Scan and try these out

Rose Sale site

Where it all broke

POP Portal

Checks GCash receipts

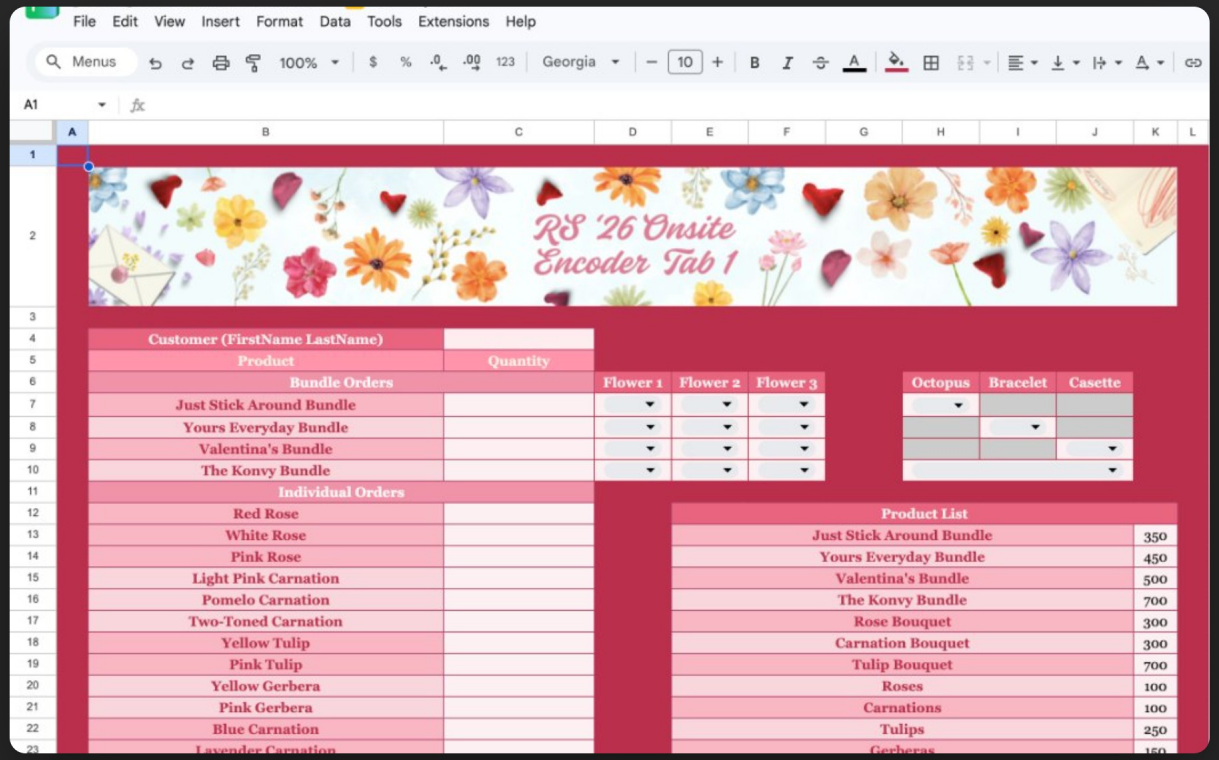

Splurge

Splits the bill for you

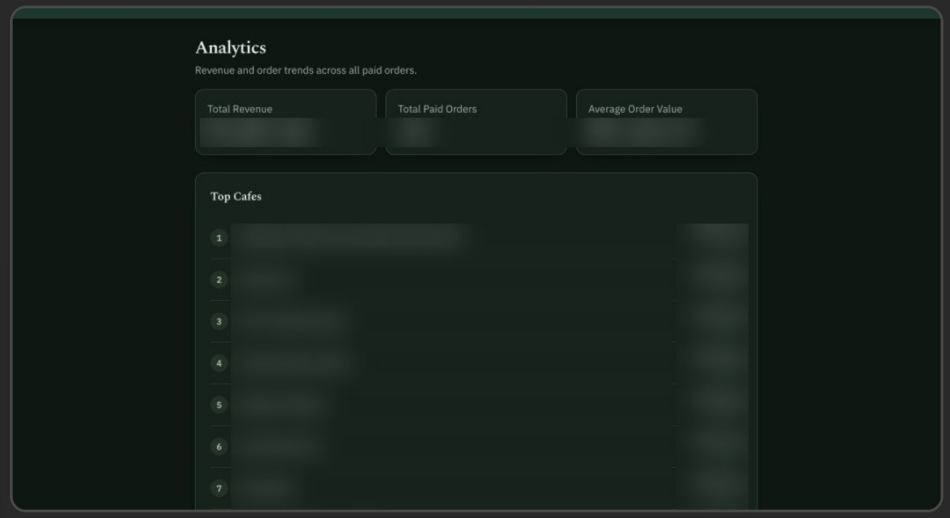

budge

Tracks your allowance

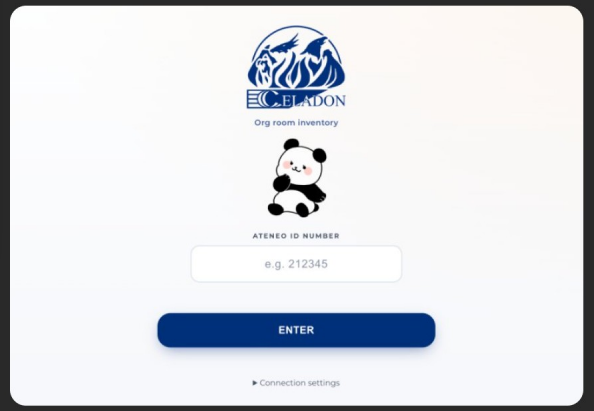

More builds

Rose Sale '26 encoder sheet, our best sheet setup yet

Order Desk at Ritual Matcha

Celadon room inventory · scan to try

What I changed at Ritual Matcha

	Before	After
Our sheets	~~8 scattered files~~	**1 portal**
Purchase orders	~~a week~~	**same day**
Monthly report	~~a full day~~	**live dashboard**

What I changed at Ritual Matcha

	Before	After
Sales team orders	~~Viber chats~~	**Order Desk**
Matching orders	~~2 hrs a day~~	**automatic**
Matcha demand	~~~35% too high~~	**caught it**

We didn’t learn any of this in class

You don’t need to know how before you start. Just be okay with figuring it out as you go.

Went solo to a hackathon, won 2 bounties

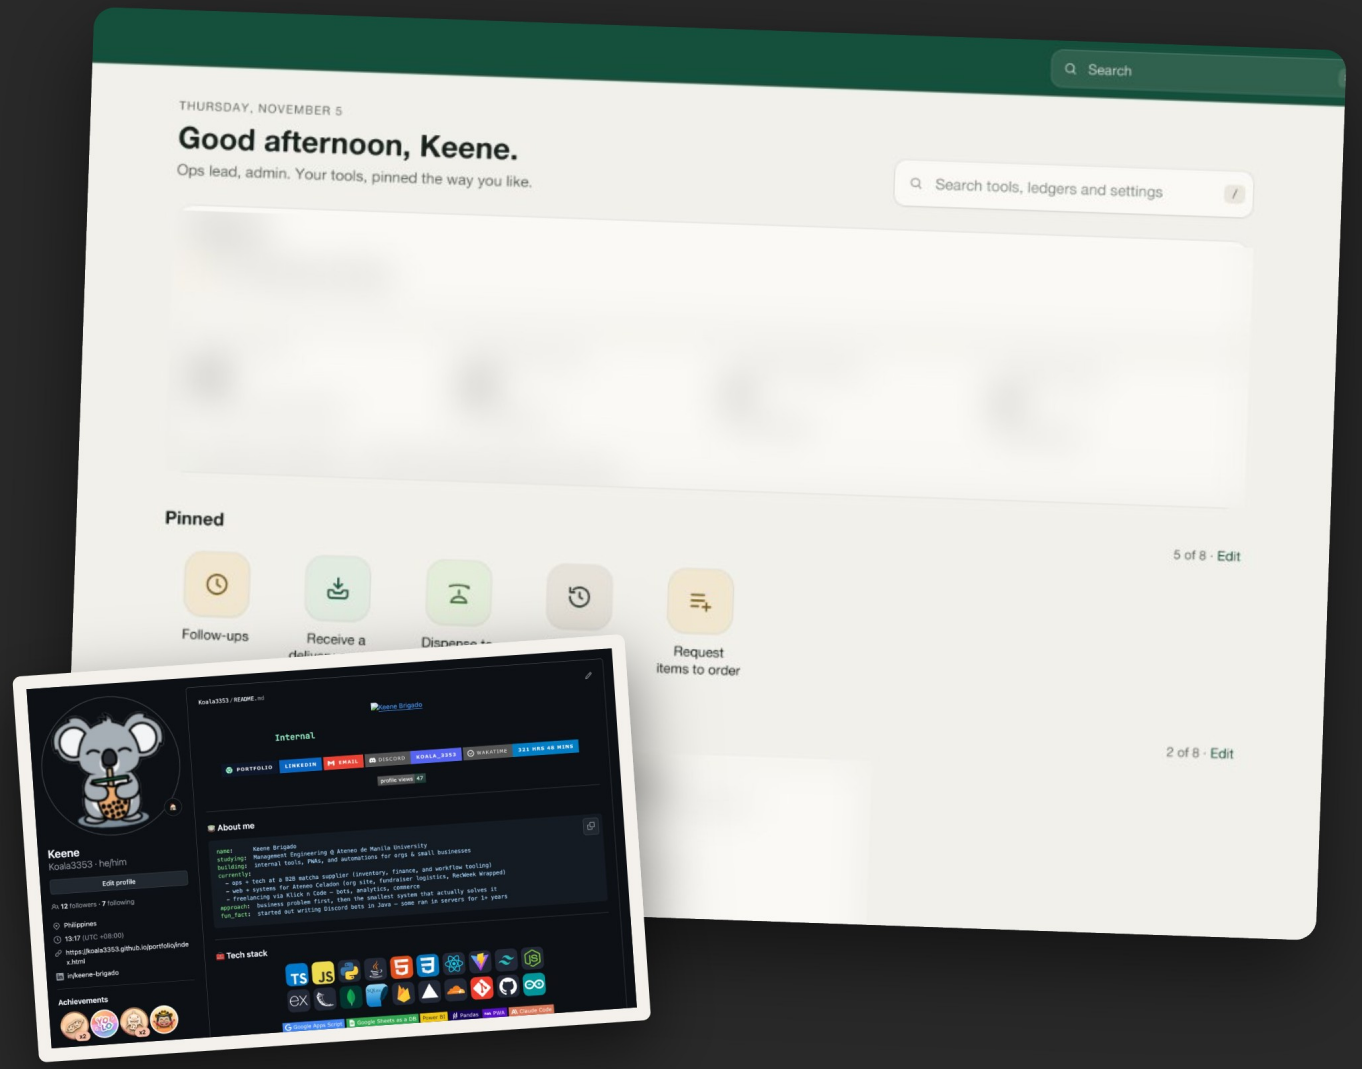

2nd at FUSION with zero marketing classes

How a Google Sheet turned into an internship

- **Google Sheets**
  Rose Sale trackers, inventory and accounting
- **Apps Script**
  Order systems, Venue Explorer, the Mahjong leaderboard
- **Ritual Matcha internship**
  Same skills, now for a business with 500+ café clients
- **SQL and deploying our own apps**
  Postgres databases on Supabase, apps on Cloudflare

Then we outgrew Sheets

Ritual Matcha's portal now runs on a real database, and we deploy it ourselves on Cloudflare.

questions to ask when something breaks

1 Who is stuck?

2 What's the real problem?

3 Does it need to be one thing?

4 What breaks first?

5 What's the smallest fix?

Let’s practice: the canteen line at 12 noon

What’s actually slowing it down?

Use your org work in interviews

- Take note of your stats and figures
- Know the cause and effect: what broke, and why
- Be ready for “What did you do after?”

My notes

2,300+ orders handled

22 lost orders, ₱15,000

All recovered by 10 AM

~2 hours a day saved

“Tell me about a time you made a mistake.”

Situation	Mid-sale, a website update I pushed stopped ₱15,000 of orders from saving.
Task	Get every order back before pick-ups the next day.
Action	Told our PM at 5:31 AM, matched GCash payments to our log tab, and messaged every customer.
Result	All 22 orders back by 10 AM. Now I never push updates mid-sale.

	Order ID	Customer Name	Product	Quantity	Grand Total	For Bundle Orders	Bouquet Flower	Flower Qty.	Form of Payment	Name of P

Your turn! Fix the Rose Sale sheet

Groups of 3. You get 15 minutes, then a 90-second pitch.

No need to build anything. Just plan out your idea and explain it.

Scan to get your own copy

Oh no! The booth Wi-Fi just died

It’s out for 20 minutes and orders keep coming. Does your idea still work?

How we'll judge

30	You found the real problem, not just "it's slow"
25	It still works when things go wrong
20	Booth staff can actually use it
15	A fresh idea
10	A clear pitch

+ People's Choice vote!

Ask us anything!

Org stuff, school, work, how we got our jobs. Scan to send or upvote questions.

So, what are you going to fix?

Thanks for coming! Let's connect on LinkedIn.
